DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of species III in Paper No. 6 is acknowledged.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 13-15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 13, the phrase "a closure that having " is inaccurate and incomplete, rendering the claim indefinite. It is not clear what structure is encompassed by such language.

Claim 13 recites the limitation "the first interior space and the second interior space" in lines 3 and 4. There is insufficient antecedent basis for these limitations in the claim. Claim 13, in line 1 refers to an interior space; it is not clear whether this space is the first or second interior space or if this interior space is made of two interior spaces.

Claim Rejections - 35 USC § 102

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 13-14 and 16 are rejected under 35 U.S.C. 102(b) as being anticipated by Lin (4,478,330). Lin '330 discloses a container for storing items (see column 3, lines 3-15) comprised of a body comprised of a first portion (upper body 1) and a second portion (lower body /closure element 2), wherein the first portion and the second portion

Art Unit: 3728

are joined together at a hinge, the first portion and second portion defining an interior space for storing items, that when in the open state permits access to the interior of the body and when closed, closes the interior space, and a video gaming device (television game 29) located on the container. See Figures 1 and 2 embodiments.

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 15 and 17 are rejected under 35 U.S.C. 103(a) as being unpatentable over Lin `330 in view of Conner (6,145,986). Lin `330 as described above discloses a versatile pocketsize container that accommodates scores of daily necessities. Lin `330 is silent about storing a pair of eyeglasses. Conner `986 discloses a container for storing a pair of eyeglasses. Therefore, it would have been obvious to one of ordinary skill in the art at the time the invention was made to also store a pair of glasses in the container of Lin `330 as taught by Conner `986 as part of the daily necessities to accommodate a user.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Shown are containers analogous to applicant's instant invention.

8. Telephone inquiries regarding the status of application or other general questions, by persons entitled to the information "should be directed to the group

clerical personnel and not to the Examiners. In as much as the official records and applications are located in the clerical section of the examining groups, the clerical personnel can readily provide status information without contacting the examiners", M.P.E.P. 203.08. The Group clerical receptionist number is (703) 308-1148 or the Tech Center 3700 Customer Service Center number is (703) 306-5648. For applicant's convenience, the Group Technological Center FAX number is (703) 872-9302. (Note that the Examiner cannot confirm receipt of faxes) Please identify Examiner Mohandesi of Art Unit 3728 at the top of your cover sheet of any correspondence submitted. Inquiries only concerning the merits of the examination should be directed to Jila Mohandesi whose telephone number is (703) 305-7015. The examiner can normally be reached on Monday-Friday 7:30-4:00 (EST).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mickey Yu can be reached on (703) 308-2672.

If in receiving this Office Action it is apparent to applicant that certain documents are missing, e.g. copies of references cited, form PTO-1449, for PTO-892, etc. requests for copies of such papers should be directed to Donna Monroe at (703) 308-2209.
